## SUMMARY

Front-End Engineering director specialized in the optimization of workflows throughout the business and into engineering to ensure workflow frameworks are in place and being utilized to full capacity.

## EXPERIENCE

### Entery Front-End Developer

Frelancer.com

February 2022 – Present, Sydney, FL

- I freelanced in my first job to increase my knowledge and develop real project , i learned a lot and understood how working with clients ,due dates and handling his requirements

### Front-End Developer

Upwork

June 2017 – June 2018, Atlanta, GA

- Collaborated with other Front-end Developers of the Your Career at upwork freelancing developers and function closely collectively with Back-end developers and Solution Architects of the project. Participated in the rewrite of Your Career at IBM front-end from Aurelia to React.
- Participated in an agile, collaborative environment across software architecture, understanding both front-end and back-end processes, while specializing in the front-end.
- Contributed closely with visual designers to deliver wireframes from conception to implementation, and Back-end developers to ensure tested and production-ready UI code.
- Wrote code for user interfaces, including interactions, responsive layouts, and styling. Utilized and contributed to the W3DS (Design Standards) to produce optimum user experience.
- Experienced in JavaScript, familiar with the latest syntax (min. ES6), with a proficient understanding of React.js and Next.js. Practiced in UI development technologies such as HTML, CSS, Redux, and API usage.

## EDUCATION

### Bachelor of Mechatronics Engineering

Helwan University · Cairo · 2027 · 3.1 GPA

## COURSEWORK

### Front-End Web Development

The Institute of Electrical and Electronics Engineers (IEEE) · 2022

- web development fundamentalis – Teamwork – communications skills
